Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

Continue to ensure the use of permanent stormwater management treatment facilities for applicable development projects, institute perpetual care agreements or require public dedication to promote long term health of treatment facilities, continue to inspect exist. storm management facilities concurrent with dry weather outfall observations.

The oldest of those facilities is less than ten years old. Their designs are modern and they are in working condition. Outflow from those storm facilities is observed at least 2 times per year and is typically clean and free of sediment or pollutants.
